WORK EXPERIENCE

Wipro India Nov 2025 to Present
Process Associate

- While working as a Process Associate, successfully delivered 20+ freelance web development projects, managing end-to-end development, deployment, and client requirements alongside professional responsibilities.

ShyamEdtech May 2025 to Oct 2025
Full stack devloper (Freelancing)

- Successfully designed, developed, and deployed 30+ custom websites and web applications for clients across various industries, delivering responsive, scalable, and user-focused solutions.
- Managed the complete project lifecycle, including requirement gathering, full-stack development, database design, deployment, maintenance, and version control using Git and GitHub.

Vastek Inc. Jan 2024 to Apr 2025
Full Stack devloper

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and PostgreSQL, delivering scalable and high-performance solutions.
- Designed and integrated RESTful APIs, optimized database queries, and implemented secure authentication and authorization mechanisms.
- Managed application deployment on cloud platforms, configured domains and DNS settings, and maintained CI/CD workflows for efficient releases.
- Utilized Git and GitHub for version control, code reviews, branch management, and collaborative development across teams.

I2S (intent to solution) Sep 2023 to Dec 2024
Mern Stack devloper Intern

- Developed and maintained responsive web applications using React.js, Node.js, Express.js, and MongoDB, improving user experience and application performance.
- Collaborated with senior developers to build RESTful APIs, integrate third-party services, debug issues, and deploy applications while following industry best practices and Git-based version control workflows.
